WHY TURKMENISTAN?

- **Large-scale public investments:** Ongoing construction projects including housing developments, government buildings, infrastructure, energy and industrial facilities
- **High import potential:** A market structure that relies heavily on imported construction materials and technical equipment
- **Growing product demand:** Increasing need for building materials, insulation and façade systems, HVAC, plumbing, electrical and mechanical solutions
- **State-supported development projects:** Government-led modernization programs ensuring sustainable and long-term business opportunities
- **Strategic regional hub:** Direct access to the Caspian Region and neighboring markets such as Azerbaijan, Kazakhstan, Russia and Iran, offering strong trade and logistics advantages
- **Strong demand for international suppliers:** Local buyers actively seek high-quality products, reliable partners and competitive solutions
- **New distribution & project opportunities:** Direct connection with local contractors, distributors and decision-makers
